شركة افق انترناشونال المحدودة

Ofeq International Company LTD.

COMPANY PROFILE

Today, I stand before you with deep pride and gratitude as we gather to celebrate our company's achievements and chart a course for our future endeavors.
As the Managing Director of OFEQ INTERNATIONAL COMPNAY LTD.
it is an honor to address such a talented and dedicated team.

First of all, I would like to express my sincere gratitude to each of you. Your hard work, commitment to excellence and tireless dedication have taken our company to new heights. In a highly competitive industry like ours, success is measured not only by numbers, but by the relentless pursuit of quality and the ability to exceed expectations and I can proudly say we have in both directions.

Last year we achieved significant milestones despite many challenges. Our services not only met, but exceeded, our clients' expectations, demonstrating our expertise and reliability. This success is a testament to the professionalism and skills of our team members, who have demonstrated their ability to innovate and adapt in a dynamic environment on a regular basis.

As we look to the future, we must remain steadfast in our determination to excel. The construction industry is growing rapidly, driven by technological advances and changing customer needs. We need to embrace these changes and leverage new technologies and strategies to increase our productivity and deliver even greater value to our customers.

Additionally, our success is determined not only by financial metrics, but also by our impact on communities and the environment. Sustainability and corporate social responsibility should be at the forefront of our actions. By prioritizing safety, environmental protection and sound business practices, we can create a wider asset

Hassan Ali Al Barqi
General Manager

Type of Electromechanical project by OIC

Local Mapower Service

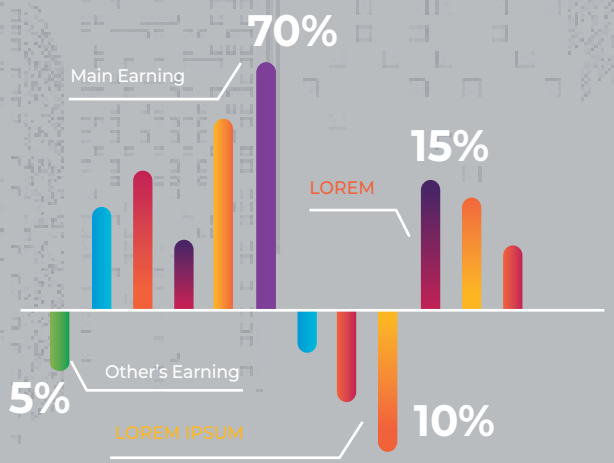

Local Manpower Supply to different company in saudi arabia

Main Contractor

OIC Done lots of Project as Main Contractor

Advertising Agency

OIC Done also branding work with different project in Jeddah

Advertising Agency

Electromechanical

A Electromechanical

we are General Contractor for Electromechanical Project Company Main Earning Department

B LOCAL MANPOWER

OIC we have Own Manpower more than 1000, with Construction Category Company 2nd Main Earning Department

C CONTRACTOR

OIC we did many project as Main Contractor Company 3rd Main Earning Department

D ADVERTISING AGENCY

Own Advertising branding workshop Company 4th Main Earning Department

F OTHER'S

OIC are Import & Export furniture with local & International vendor, Company 5th Main Earning Department

Electrical Services

As a company we are able to offer a fully tailored maintenance program to suit individual customers' requirements. This could very well be outside of the client's own hours of working or indeed over an annual shutdown period. Whatever the need OIC will be able to develop a Planned Preventative Maintenance program to maximize our client's productivity and electrical safety, and electrical safety, and minimize any possible downtime.

OIC Services

Residential Electrical Services

- Home wiring and rewiring
- Lighting installation and upgrades
- Electrical panel upgrades
- Outlet and switch installation
- Electrical inspections and troubleshooting

Commercial Electrical Services

- Electrical system design and installation
- Maintenance and repair services
- Energy-efficient lighting solutions
- Generator installation and maintenance
- Data and communication cabling

Industrial Electrical Services

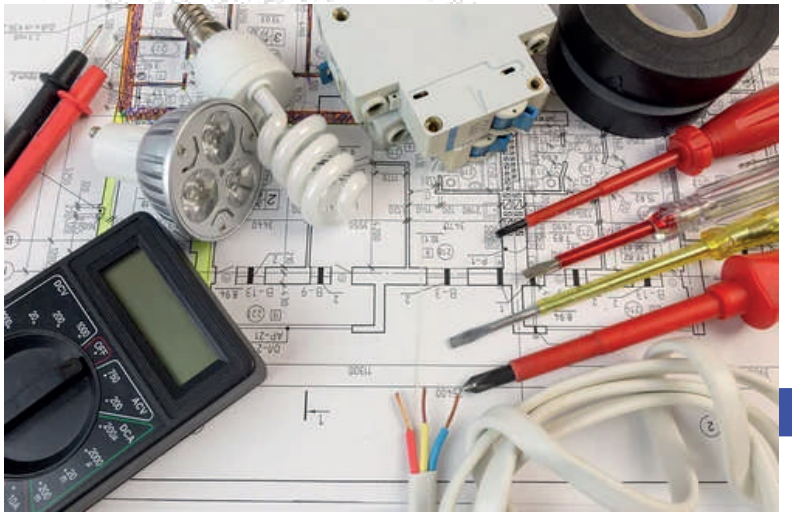

- Electrical system installation and maintenance
- Motor control and automation systems
- Power distribution and backup systems
- Preventative maintenance programs
- Machinery and equipment wiring

Emergency Electrical Services

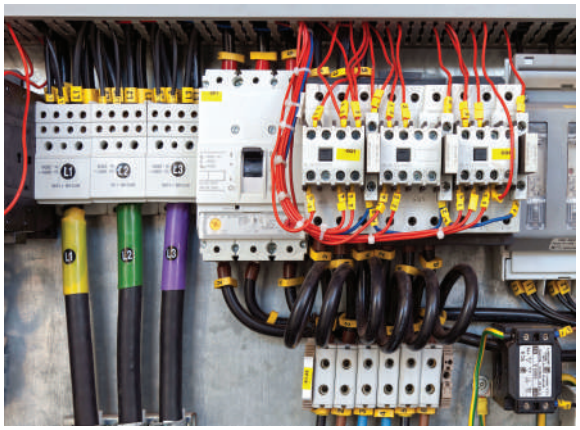

- 24/7 emergency electrical repairs
- Power outage solutions
- Fault finding and rectification
- Temporary power solutions
- Electrical hazard mitigation

Specialized Electrical Services

- Smart home automation
- Solar panel installation and maintenance
- EV charging station installation
- Security system installation
- Fire alarm and smoke detector systems

Electrical Services

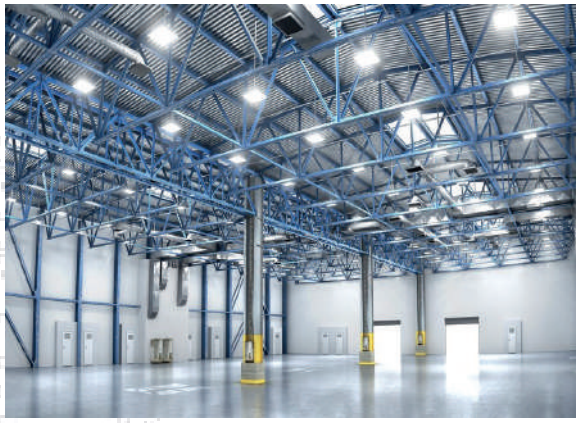

Networking & CCTV System

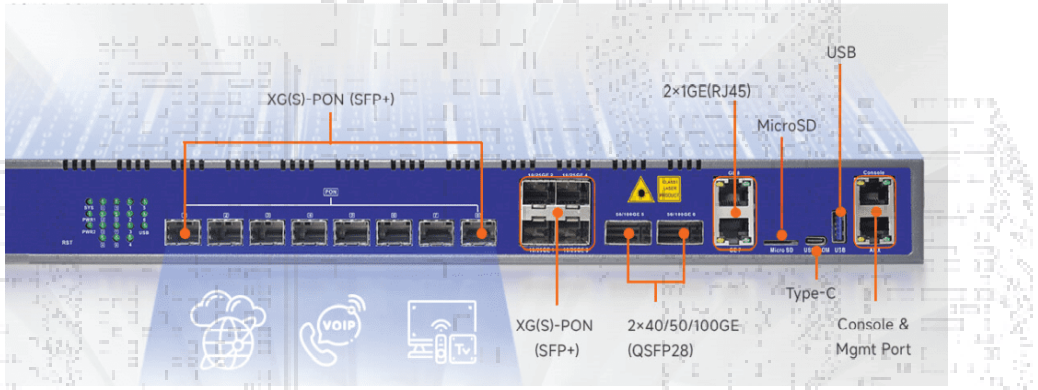

Create a network diagram detailing the layout of network devices, cabling, switches, routers, and access points. Decide on the type of network (wired, wireless, or hybrid) and the necessary equipment. Run Ethernet cables-(Cat5e, Cat6, or higher) from the central hub to each network device location.

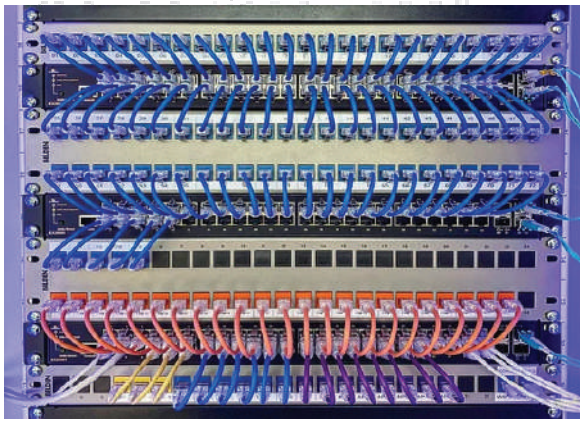

- **Network Design**
- **Cabling**
- **Networking Devices**
- **Testing and Configuration**

Determine the areas that require surveillance and the specific security needs. Consider factors like lighting, field of view, and potential obstructions. Choose the types and number of cameras (e.g., dome, bullet, PTZ) based on the assessment. Plan the locations for cameras, DVR/NVR units, monitors, and control panels. Decide on wired (coaxial or Ethernet) or wireless cameras based on the site conditions

- **Assessment**
- **System Design**
- **Mounting Cameras**
- **Wiring**
- **Connecting to DVR/NVR**
- **Testing and Configuration**
- **Maintenance:**

General Maintenance
